Why Same Day Trash and Recycling?

Same Day service is a unique program that municipalities find beneficial and convenient to their residents. By servicing both waste and recycling on the same day will keep sidewalks open and clear

for pedestrians and kids on bikes. The same-day service will also eliminate containers sitting out all week for collection and there is a convenience factor when you just need to remember your one day for both waste collections.

Phoenix, Queen Creek and Peoria all utilize the same day service program and have received praised response from their residents.
